

## Management of Multi-Drug Resistant Organisms in Rehabilitation Facilities

Is your facility a member in the MDRO network Rhine-Main? Yes  No

Main focus of your facility: .....

Is there an early neurologic rehabilitation section in your facility? Yes  No   
(if yes: please answer questions page 2 and page 3 separately for general rehabilitation and early neurological rehabilitation; if no: please ignore all questions regarding early neurological rehabilitation)

### What type of rehabilitation facility do you work in?

- Attached/part of an acute hospital facility
- Stand-alone facility with doctor input on request only
- Stand-alone facility with 24-hr medical coverage by a doctor
- Other (please specify) .....

### Does your rehabilitation facility follow a written guideline or policy on the management of patients with MDROs?

Yes  No

### Which of the following policies/guidelines best describe the ones used in your facility?

- International guidelines
- National guidelines (i.e. KRINKO)
- Local /regional guidelines (Guidelines of the MDRO network)
- Guidelines or policies specific to rehabilitation facilities
- Other (please specify).....

### Are there hygiene specialists available at your facility?

- Specialist in hospital hygiene (Physician) Yes  No
- Authorized hygiene practitioner (one or more) Yes  No
- Infection control nurse Yes  No
- Authorized hygiene-care nurses Yes  No

### How many rehabilitation beds do you have at your institution?

- How many single rooms? .....
- How many shared rooms? .....
- Regarding shared rooms: how many persons share one sanitary module? .....

### What proportion of your patients arrive from the following facilities?

- Acute Care hospital .....% from their home .....%
- Long-term care facilities for the elderly .....% other long-term care facilities.....%

Please answer the following questions separately for general rehabilitation (GR) and – if available – for early neurological rehabilitation (ENR)

**Do you establish whether your patients are colonized/infected with a multidrug-resistant organism (MDRO) prior to their admission?**

**General rehabilitation**

- Yes, always where possible
- Yes, sometimes
- No, never
- Don't know
- Other (please specify) .....

**Early neurological rehabilitation**

- Yes, always where possible
- Yes, sometimes
- No, never
- Don't know
- Other (please specify) .....

**Do you screen for MDROs upon admission?**

**General rehabilitation**

- Yes, always where possible
- Yes, sometimes
- No, never
- Don't know
- Other (please specify) .....

**Early neurological rehabilitation**

- Yes, always where possible
- Yes, sometimes
- No, never
- Don't know
- Other (please specify) .....

**If only some patients are screened, what percentage of patients do you screen?**

**General rehabilitation** ..... %

**Early neurological rehabilitation** ..... %

**If only some patients are screened, which types of patients are selected for screening?**

	<b>GR</b>	<b>ENR</b>
Those admitted from another institution	<input type="radio"/>	<input type="radio"/>
Patients who have previously tested positive for a multidrug-resistant organism (MDRO)	<input type="radio"/>	<input type="radio"/>
Only patients who will share a room with other patients	<input type="radio"/>	<input type="radio"/>
Don't know	<input type="radio"/>	<input type="radio"/>

**Which organisms do you screen for on admission?**

**General rehabilitation**

- MRSA
- VRE
- 3MRGN
- 4MRGN/CRE
- ESBL
- Clostr. difficile
- Other (please specify) .....

**Early neurological rehabilitation**

- MRSA
- VRE
- 3MRGN
- 4MRGN/CRE
- ESBL
- Clostr. difficile

**Are patients screened for MDROs prior to their discharge?**

**General rehabilitation**

- Yes
- No
- Don't know
- Sometimes in certain circumstances
- (Please explain briefly below)
- .....

**Early neurological rehabilitation**

- Yes
- No
- Don't know
- Sometimes in certain circumstances
- (Please explain briefly below)
- .....

**Approximately what percentage of your rehabilitation in-patients are colonized/infected with an MDRO?**

**General rehabilitation**

- MRSA .....%
- VRE .....%
- 3MRGN .....%
- 4MRGN/CRE .....%
- Don't know

**Early neurological rehabilitation**

- MRSA .....%
- VRE .....%
- 3MRGN .....%
- 4MRGN/CRE .....%
- Don't know

**Do patients with MDROs have to wait longer for admission to your rehabilitation hospital?**

- Yes
- No
- Don't know

**Which MDROs were responsible for delaying admission?**

- MRSA
- VRE
- 3MRGN
- 4MRGN/CRE
- ESBL
- Other (please specify) .....

**Have patients been refused entry to your rehabilitation facility on the basis of their MDRO status?**

- Yes
- No
- Don't know

**Are patients with MDROs grouped in separate wards or ward areas?**

- Yes
- No
- Don't know

**If the previous question was answered with yes: How are the patients grouped?**

- Create new single rooms
- Create separate areas on the ward for MDRO patients only
- Create separate section for MDRO patients in therapy areas
- Dedicate equipment for MDRO patients
- Dedicate equipment for individual MDRO patients
- Schedule MDRO patients at the end of therapy hours
- Don't know
- Other (please specify).....

**Have you altered your rehabilitation facilities in any way to accommodate MDRO patients?**

Yes  No  Don't know

**Are the activities of patients with MDROs limited in any of the following ways to prevent the spread of these organisms?**

- Therapy in patient's room only
- Therapy in a gym dedicated to MDRO patients
- Meals in patient's room only
- Not allowed to attend physiotherapy gym
- Not allowed to attend occupational therapy gym
- Not allowed to attend hydrotherapy
- Not allowed to participate in group therapy
- Not allowed to attend social gatherings
- Don't know
- Other (please specify).....

**Are patients with MDROs allowed to participate in a full rehabilitation program?**

Yes  No

**What impact do you feel isolating patients with MDROs has on their outcome?**

- Severely limits outcome
- Moderately limits outcome
- Slightly limits outcome
- Does not limit outcome
- Other (please specify).....

**To which of the following groups, if any, does your institution offer education or training in relation to MDROs? (Please select all that apply)**

- Nurses
- Doctors
- Allied Health Professionals
- Other Ward Staff
- Patients
- Family members or visitors
- Others
- No education or training relating to MDROs is provided
- Don't know

**Thank you very much!**

The questionnaire was adopted from Doherty A, McNicholas S, Burger H, Boldrini P, Delargy M. European survey of management of patients with multidrug-resistant organisms in rehabilitation facilities. Eur J Phys Rehabil Med. 2019 Aug;55(4):418-423. DOI: 10.23736/S1973-9087.19.05570-9
