Dear future colleagues,

by chance I found the articles and photos of the new KOMM, and instantly I remembered my eventful time in the medicine-studies (1972-1978), the strike against the “Praktisches Jahr” in May 1977, some dreaded professors like Prof. Starck and Prof. Schneider in the anatomy, whom we gave the shivers and of course the KOMM and its development.

For the new KOMM I wish you at least so many good discussions, as we had in these times.

MfG
