

<b>Medical Expert</b>	<b>n curricular units</b>
<b>1 Metabolism, Nutrition, Gastrointestinal</b>	<b>11</b>
Diabetes mellitus: Diagnosis	
Diabetes mellitus: Therapy	
Diabetes mellitus: (initiating) Insulin-Therapy	
Diseases of the thyroid gland	
Irritable bowel disorder	
Proctology	
Microbiome	
Travelling diseases	
Diverticulitis	
Cholecystolithiasis/-cystitis	
Endocrinology in general practice	
<b>2 Respiratory tract and ears</b>	<b>5</b>
Common cold	
Differential diagnosis: Cough	
Advising patients with asthma / COPD	
Sleep apnea syndrome	
The aching ear	
<b>3 Cardiovascular system</b>	<b>4</b>
Arterial Hypertonia	
Venous diseases	
Thoracic pain in the general practice	
Cardiology in general practice	
<b>4 Musculoskeletal system, pain, injuries</b>	<b>10</b>
Neck pain	
Back pain	
Orthopedics: Shoulder	
Orthopedics: Elbows and hands	
Orthopedics: Vertebral column and sacroiliac pain	
Orthopedics: Pool and hips	
Orthopedics: Knee	
Manual medicine / diagnostic and therapy	
Osteoporosis	
Rheumatic diseases	

<b>5 Eyes and nervous system</b>	<b>3</b>
The red eye / foreign body	
Dizziness	
Head aches	
<b>6 Sexuality / family planning / reproductive organs / urinary tract</b>	<b>9</b>
Gynecology for general practice	
Oral contraception / morning-after pill	
Supporting pregnancies	
Medication during pregnancy	
Obstetrics for general practice	
Breast-feeding	
Treating the whole family	
Urology for general practice	
Incontinence	
<b>7 skin</b>	<b>8</b>
Chronic wounds: part 1	
Chronic wounds: part 2	
Overview dermatology	
Acute diseases of the skin	
Common dermatosis in the face and on the head	
Common dermatosis in infants, children and youth	
Common dermatosis in summertime	
Allergology	
<b>8 Changing awareness, thinking and sensation / psychosocial aspects</b>	<b>14</b>
Psychiatric diseases in general practice	
Psycho-trauma	
Depression	
Diagnostic of depression	
Anxiety disorder	
Guideline-based management of anxiety disorders in general practice	
Somatoform disorders	
Biopsychosocial model in medicine	
Diagnostic, therapy and treating alcohol abuse	
Addiction medicine	
Integration of substitution-therapy	

Dementia	
Guidelines: dementia	
Guidelines: Fatigue	
<b>9 Pediatrics</b>	<b>5</b>
The feverish child.	
Pediatric emergencies	
Domestic violence / violence against children	
ADHD	
Common check-ups for children ( <i>U-Untersuchungen</i> )	
<b>10 Support the chronic ill / multimorbidity</b>	<b>9</b>
Geriatrics	
Transition from practice to nursing home	
Caring for patients in nursing homes	
Agitated patients in nursing homes	
Geriatric Assessment	
Geriatrics in Baden-Württemberg	
Polypharmacy	
Pharmaceutical interactions	
Brown bag review	
<b>11 palliative medicine</b>	<b>5</b>
Control of symptoms and pain	
Palliative medicine	
Hospices	
Support dying patients / communication with relatives	
Prophylaxis of burn-out in palliative medicine	
<b>12 Emergencies</b>	<b>4</b>
Emergencies in general practice	
Ready for out-of-hour-care: part 1	
Ready for out-of-hour-care: part 2	
Ready for out-of-hour-care: part 3	

ADHD=Attention deficit hyperactivity disorder, COPD=chronic obstructive pulmonary disease
