

**Structured interview for focus groups on the topic: Assigning activities on the ward to students on final year clerkship**

- (1) How do you regulate the assuming of activities by students in their clinical year in the ward operation?
- (2) What difficulties or problems arise when students take on professional activities on the ward?
  - a. Please describe what causes the difficulties and / or problems.
  - b. Please evaluate if these difficulties have implications for patient safety.
- (3) Please assess if EPAs are appropriate as a way of selecting appropriate professional activities for students on the ward.
  - a. Discuss the advantages and disadvantages of the EPA concept for assigning activities on the ward to final-year clerkship students.
  - b. Evaluate the advantages and disadvantages compared to your previous approach to selecting activities for students on the ward.
